

I Z F A

The Intercollegiate Zionist Federation of America (IZFA) primarily is an educational organization found on 125 college campuses throughout the United States and Canada. It has a two-fold purpose.

First, IZFA intends to acquaint the general student body and the public with the State of Israel and its accomplishments. Second, IZFA strives to revitalize Jewish youth, as well as all Jewry, along the lines of a positive, creative, free, and democratic community, based on the realization of the undisputable fact that we are a Jewish people.

All this, the group strives to achieve through the media of the Hebrew language, song, and dance; discussions, lectures, and seminars; conventions; summer camps; and tours to Israel. In addition, IZFA has its own Chalutz groups that plan to settle permanently in Israel.
