

✓ SEMINAR COMMITTEE

Seminars are oft times the best means to realize the role of REW. Around the theme "Faith or Fear" four basic issues are suggested.

1. Religion and World Peace.
2. Religion and Social Betterment
3. Religion and Personal Security
4. Religion and Higher Education

The scheduling of these seminars require careful planning. The right topic at the proper place with a competent leader will serve our purposes best.

Conduct a campaign of pre-registrations in dormitories. This will help to establish the number of seminars and their localities where the ought to be held.

The seminar attendance should be less than 20 persons.

Notify pre-registration people about time and place of the meeting by a penny postcard or by personal contact.

A student shall be responsible to get the leader to the meeting and introduce him properly

The seminar should be of a continuous character so that the leader can develop his topic throughout the week. Assign only one topic to each leader.
