

PERSONAL CONFERENCE COMMITTEE

Many students may request personal appointments with the leaders of REW.

Such requests should be properly filed and left to the leaders discretion.

A mimeographed form placed in the union should be filled out before noon if a person wants a conference. The committee shall convey these requests to the leader, and after their decision and possible scheduling, return the information to the Union for the student to obtain.

The availability of such personal conferences needs to be well publicized. The place where the forms are deposited ought to be easily discernable for students to notice.

If demands are rather numerous these appointments need to be limited to a certain length of time.
