

Greetings From Our President

Dear Sisters:

The Sixth Annual Donor is a happy occasion for it marks the 25th birthday - the silver anniversary of the Jewish War Veterans Auxiliary. From its inception, the organization has devoted itself to those broad humanitarian principles which have made our nation the symbol of Democracy.

We should be justly proud of the fine record of achievements which has earned for the JWVA an enviable position in the community. Our primary responsibility and the emphasis of our program has been directly related to both the hospitalized veteran and those in military service. In addition to our hospital program, we have cooperated with community groups for the benefit of a healthier and happy place in which to reside. We participate in the following projects: Child Welfare, Aid to Israel, Brandeis Americanization programs in the public schools and within the Girl Scout movement.

There is need for an enlargement in the scope of our meritorious work. We can meet this challenge only by the continued, unstinted efforts of our membership. I am certain that our Auxiliary will respond and with God's guidance we will go forth to even greater accomplishments in the future.

Sylvia Herman,
President
