

What sovereign right to declare war did we have when the Imperial War Council in Tokyo decided to attack Pearl Harbor?

Scientists agree, and they are the men who should know, that because of the development of such devastative weapons as the atomic bomb, bacteriological warfare, rockets, our civilization would be destroyed in the event of a third world war!! This should make us work all the harder to bring about at least a limited world government to prevent war, which scientists also agree is our only hope in this very trying period.

In a statement of guiding principles in 1937, the Central Conference of American Rabbis said the following: "It (Judaism) regards justice as the foundation of the well-being of nations and the condition of enduring peace. It urges organized international action for disarmament, collective security and world peace."

"The world has risked so much for war. Let it risk as much for peace." These words terminated the resolutions on international relations of the Rabbinical Assembly of America in 1933. I would like to close on the same note and make a plea to you to do all you can, by word of mouth, by the power of the pen, by strength of spirit, and by unwavering determination to carry out the will of God.

Shalom! Peace!

ROSALYN, DEAR ROSALYN

Rosalyn, dear Rosalyn,  
The Bible tells us this,  
That Adam showed his love for Eve,  
With a warm and tender kiss.

Then Rosalyn, sweet Rosalyn,  
Come put your lips to mine,  
For Adam still adores his Eve,  
Still finds her lips divine.

Poor Mary,  
None too wary,  
I must tell her  
That her feller  
Was a sinner,  
No beginner  
In the way  
He would play  
On her affections.

I will say  
She was gay  
Once too often  
Then she softened  
To his talkin'  
Durin' the walkin'  
They would do.

And his sighin'  
Was just tryin'  
For the thing  
That would bring  
Satisfaction  
And real action  
Along the way.

Poor Mary!  
None too wary,  
Now the parson,  
Deacon Carson,  
(And the Rav)  
All the town  
Miles aroun'  
Know her doin's  
And her ruin's  
Quite complete.

But she's sweet  
And I like her,  
What the hell!

JUDGED \*(CONTINUED ON PAGE ONE)

"In every generation" says the Passover Haggadah, "we should feel as if we too had left the slavery of Egypt with our ancestors. . ."

Let us feel this year as if we too were a part of EXODUS 1949 .  
Let us feel here as if our life or death were held in judgement by our brothers.
