

## A WORD FROM OUR UNIVERSITY PRESIDENT

UNIVERSITY OF CINCINNATI  
OFFICE OF THE PRESIDENT

Because I believe Jewish students should prize their rich religious and cultural heritage, I am highly pleased with the progress of Hillel at the University of Cincinnati. This organization, whose name is taken from that of the great Jewish scholar of the First Century B.C., forms a parallel with the Wesley Foundation, the Newman Club, and other student denominational groups on our campus. During the past quarter of a century, the national foundation has developed chapters at nearly 200 colleges and universities throughout the nation. Everywhere the results have proved gratifying.

Here at UC, Hillel sponsors a weekly religious service, the annual Passover Seder, the yearly Jewish Welfare Fund drive, and, in addition, socials, and an annual camp in the Spring, as well as a monthly paper.

True education means an all-round development of the individual. The University provides the intellectual, the professional, and the broadly social training. For the spiritual emphasis which gives meaning to life, we call upon the churches and synagogues of Cincinnati. An essential supplement to religious service is supplied by campus organizations such as Hillel. We sincerely hope that all Jewish students will join Hillel as campus representatives of the richness of Jewish culture and faith.

Raymond Walters

President
